

Penny Black PROJECT GUIDE

SIMPLICITY Sister: Marion Vagg

Penny Black Products Used: 30-418 Stitched Flowers

Additional Products: White card stock, Watercolor card stock, Kuretake Gansai Tambi watercolor paints (blue and green shades), Paintbrush, White embossing Powder, Heat tool, Anti-Static powder bag, Versamark ink, 3D mounting foam.

Instructions:

1. Create a panel from watercolor card stock that is slightly smaller than the card base.
2. Create a gradient of color on the watercolor cardstock, using blue and green shades of watercolor paints. Leave to dry naturally, or heat set with a heat tool. Repeat this process several times to intensify the colors, blending in the colors to create a smooth gradient of color.
3. Once the watercolor panel is completely dry, ink up the floral image from the PB Stitched Flowers stamp set in Versamark ink.
4. Stamp the image in the left hand bottom corner of the panel and sprinkle with white embossing powder. Heat set with a heat tool.
5. Stamp the sentiment from the same set, above the flowers and also heat set with white embossing powder.
6. Mount the focal panel onto a top folding white note card with 3D mounting foam.
