

Penny Black PROJECT GUIDE

SIMPLICITY Sister: Marion Vagg

Penny Black Products Used: 25-003 Verdant, 30-350 Sentiment Collection

Additional Products: Watercolor card stock, Kuretake Gansai Tambi watercolor paints (blue, green and teal shades), Dreamweaver white Embossing Paste, Palette knife, Paintbrush, Water, VersaFine Onyx Black ink, 3D mounting foam

Instructions:

1. Create a panel from watercolor card stock that is slightly smaller than the card base.
2. With a clean paintbrush and water, wet the watercolor panel.
3. Using shades of blue, green and teal watercolors, create a loose watercolored background. Leave to dry naturally, or heat set with a heat gun. Repeat this process several times to intensify the colors until the desired effect is achieved.
4. Once the watercolor panel is completely dry, place the PB Verdant stencil onto the watercolor panel and secure with tape.
5. Using a palette knife and embossing paste, smooth the paste over the stencil. Remove and repeat in the opposite corner. Remove the stencil and allow to dry naturally.
6. Once embossing paste is dry, stamp the 'You are Wonderful' sentiment from the PB Sentiment Collection set in VersaFine Onyx black ink.
7. Mount the focal panel onto a top folding note card with 3D mounting foam.
