Instructions:

Stamp and color the sleigh polar bears image from Arctic Antics (30-314) on white card stock. Fussy cut and set aside.

Create the night background. On a Bristol paper card panel add dark blue hues (Faded Jeans, Blueprint Sketch and Chipped Sapphire), Seedless Preserves, Black Soot and Squeezed Lemonade Distress Inks to create the night sky. Therese started from light to dark and started on the sides finally adding a little yellow in the middle of the panel. Splatter water on the panel using a paintbrush.

Stamp snowflakes from Soft Grace (30-311) and Holiday Snippets (30-307) with Versamark Ink. Emboss the images with white EP.

Create a snowy hill using the Edges Die (51-136) die on white card stock. Stamp the sentiment from Yuletide Wishes (30-382) with Black Onyx Versafine Ink. Heat emboss the sentiment with clear EP. Adhere the hill to the card panel.

Adhere the polar bear image to the panel with foam tape.

Add the panel to a top folding card base. Finally add clear sequins to the card to complete it.
