Instructions:

Begin with a White A2 card base. Cut a Rectangle and a Circle directly from the card face. Set card aside saving the die cut pieces for use on a future project.

Cut one 5.5 x 4.25" panel from white cardstock. Stamp image directly to the front of this panel.

Sponge clouds over the image in the desired location - there is no need to mask the image.

Adhere panel to the top section of the inside of the card base with the image facing out through the die cut opening using craft glue.

Stamp a second image on to a scrap of white card stock. Color as desired and cut out. Glue the cut out directly to the card face covering the image previously stamped on the panel.

Apply a light amount of Lime green ink around the girl's feet using a sponge.

Stamp sentiment using Red Dye Ink.
