

Penny Black PROJECT GUIDE

SIMPLICITY Sister: Loll Thompson

Penny Black Products Used: 30-396

Winter Village, 30-316 Season's Gift

Additional Products: Misti, Neenah 110 lb. card stock (solar white), mix of embossing powders (gold tinsel, gold, blue glitter, UTEE), Add-ins – optional (shaved ice, glitter, sequins, beads, etc.), heat tool or pancake griddle, (craft mat and parchment paper if using griddle).

Instructions:

If using griddle, line first with piece of craft mat to protect surface. Use a piece of parchment over top so it is easy to pull on and off griddle.

Begin with small panel of card stock placed on parchment and then placed on griddle (or heat surface). Sprinkle with a mix of embossing powders. Once it starts to melt, add glitter, shaved ice, sequins, or whatever you have on hand to add sparkle and texture. Heat using a griddle on medium heat (or heat tool). Top the melted powders and glitter with either clear embossing powder or UTEE (ultra thick embossing enamel) and let it melt (it seals everything in place).

Die-cut winter village and adhere to bottom of Encrusted sky. Create an A2 card base from white card stock. Stamp sentiment in one of the colors of embossing powders used for the sky. Add foam to back of main panel and pop up on card base.
