Instructions:

Create A2 card base from white card stock; set aside.

Used mixed media paper with existing paper towel background of green and blue. Stamped the image in light brown. Using Distress inks over top of the light brown image, watercolored the leaves, branch and berries. Used deep red ink to add shading to the berries. Painted the bell with silver H2O watercolours, adding highlights with dark gray ink. Used a fine tip black permanent marker to hand-draw around image. Used green marker to draw veins on leaves and added highlights to the berries with a white gel pen. Finished with stamping the sentiment in deep red.

Adhered card front to base.
